Shop the SFC members on this Map! Choose products of Luncheon, Pritz, add value that are also eco-friendly

SFC Design/Green Leader Events Monday

Discussion of SFC’s 2013 annual Green Home Furnishings Study, sponsored by Mitchell Gold + Bob Williams and conducted by Impact Consulting. Results show that consumers are more and more aware of environmental issues, but need to be educated about make in home furnishings. 90% of these surveyed thought it was a friendly product to buy, but only 3% bought eco-friendly home furnishings products, being unsure of the options available to them. Learn how fellow members are getting the message out, and about how their business is affected.
